Exercise 1 Code

```
Form2.cs [Design]
Project1
14 {
15     InitializeComponent();
16 }
17
18 1 reference
19 private void Form2_Load(object sender, EventArgs e)
20 {
21 }
22
23 1 reference
24 private void btnCheck_Click(object sender, EventArgs e)
25 {
26     if (int.TryParse(txtNumber.Text, out int number))
27     {
28         if (number % 2 == 0)
29             lblResult.Text = number + " is Even";
30         else
31             lblResult.Text = number + " is Odd";
32     }
33     else
34     {
35         lblResult.Text = "Please enter a valid number";
36     }
37 }
38 }
39
```

Exercise 1 Design

Form2.cs [Design]

Scaling on your main display is set to 125%. Consider opening the WinForms Designer in DPI-Unaware Mode. [More info](#)

Form2

Enter a Number:

Exercise 1 Output

A screenshot of a Windows application window titled "Form2". The window has a light gray background. At the top, there is a label "Enter a Number:" followed by a text box containing the number "12". Below the text box is a button labeled "Check". At the bottom of the window, the text "12 is Even" is displayed.

Exercise 2 Code

```
Form2.cs [Design]
Project1
    Project1.Form2
        btnCheck_Click(object sender, EventArgs e)
14
15     InitializeComponent();
16
17
18     1 reference
19     private void Form2_Load(object sender, EventArgs e)
20     {
21     }
22
23     1 reference
24     private void btnCheck_Click(object sender, EventArgs e)
25     {
26         if (int.TryParse(txtNumber.Text, out int number))
27         {
28             if (number > 0)
29                 lblResult.Text = number + " is Positive";
30             else if (number < 0)
31                 lblResult.Text = number + " is Negative";
32             else
33                 lblResult.Text = "The number is Zero";
34         }
35         else
36         {
37             lblResult.Text = "Please enter a valid number";
38         }
39     }
40 }
```

Exercise 2 Design

A screenshot of the Visual Studio WinForms Designer. The top bar shows "Form2.cs" and "Form2.cs [Design]". A message at the top states: "Scaling on your main display is set to 125%. Consider opening the WinForms Designer in DPI-Unaware Mode. [More info](#)". The design view shows a window titled "Form2" with a light gray background. It contains a label "Enter a Number:" followed by a text box. Below the text box is a "Check" button. Further down is a label "Result".

Exercise 2 Output

A screenshot of the running application. The window title is "Form2". The text box now contains the value "-9". The "Check" button is highlighted with a blue border. Below the button, the text "-9 is Negative" is displayed.
